

AMERICAN SOCIETY OF NEPHROLOGY (ASN)

KAPSAM

American Society of Nephrology (ASN) tarafından yayınlanan nefroloji alanındaki 2 adet dergiyi kapsamaktadır. Ayrıca Kidney360 adlı dergiye de açık erişim olarak erişilebilmektedir.

◆ Bunlardan ilki “Journal of the American Society of Nephrology” (JASN)’dir. Nefrolojideki klinik ve temel alanlar ile ilgili makaleleri, eleştirileri kapsar. JASN 9.6 etki faktörü ile konusunda önemli bir yere sahiptir. Dergi nefrolojinin yanı sıra hücre biyolojisi, genetik, immunoloji, patoloji gibi konuları da içermektedir.

◆ İkinci yayını ise, Clinical Journal of the American Society of Nephrology (CJASN)’dir. Klinik nefroloji çalışmaları için önemli bir yayındır. Klinik nefroloji, böbrek patofizyolojisi, böbrek nakli gibi bir çok konuyu kapsamaktadır.

İÇERİK

- Konusunda önemli bir yere sahip olan “Pediatrics” dergisinin etki faktörü 4.789’dur.İçerisinde konu uzmanları tarafından gözden geçirilmiş özgün araştırmalar, eleştiriler, yorumlar yer almaktadır.1948’den günümüze ait tüm sayıları kapsar.
- “Pediatrics in Review” günlük olarak uygulamada görülen kapsamlı araştırmaları nedeni ile klinisyenler, hastabakıcılar ve eğitimciler tarafından takip edilmektedir.
- Neoreviews, neonatoloji alanında en son gelişmeleri kapsamaktadır.Ayrıca Visual Diagnosis(Görsel Tanı) gibi etkileşimli özellikleri içermektedir.

ERİŞİM

«ASN (American Society of Nephrology)» veri tabanına, Gazi Üniversitesi Merkez Kütüphanesi web sayfasında (<http://www.lib.gazi.edu.tr>) yer alan «Veri Tabanları» başlığından erişebilirsiniz.

THIS MONTH'S HIGHLIGHTS

This Month's Highlights

Journal of the American Society of Nephrology 34(5):p

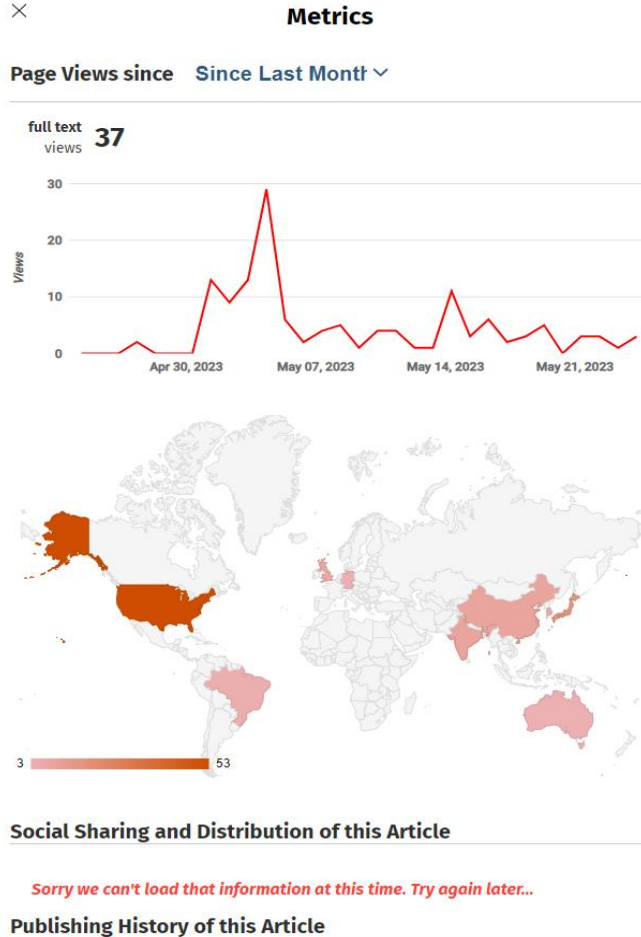

Immune Checkpoint Molecule T Contributes to Acute Kidney In

T cells mediate pathogenesis and repair during acute kidney injury. In a novel immune checkpoint molecule, T cell immune response is characterized by upregulation of proinflammatory cytokines and had effector and regulatory T cells. In a mouse model of ischemia reperfusion and cisplatin-induced AKI, T cell immune response is characterized by upregulation of proinflammatory cytokines and had effector and regulatory T cells. Single-cell RNA sequencing revealed possible promising novel target for AKI therapy, and is discussed in this review. *See Noel et al., pages 755–771. Also, see related editorial by Mo*

ASN Journals' RSS Feeds

RSS feeds can provide you the latest content from ASN journals. Via an RSS feed, citation, and abstract information for Current and Recent Issues are available as are Early Access articles.

Collection Feeds, represent a specific subject area. Articles are included in these feeds based on either curation by the Editors and/or the inclusion of a specific keyword on the article.

To receive content via RSS feed, you will need a web browser with feed capabilities or an RSS reader or aggregator. You can learn more about RSS readers at Comparison of feed aggregators.
