BMJ JOURNALS ONLINE COLLECTION

KAPSAM

- *BMJ Journals*, British Medical Association tarafından yayınlanmakta olan dergileri içermektedir.
- *BMJ* , her gün çevrimiçi olarak güncellenen, her hafta basılı ve online olarak sunulan uluslararası hakemli bir tıp dergisidir. Doktorlara ve diğer karar vericilere günlük uygulamalarında, yaşam boyu öğrenmede ve kariyer gelişiminde yardımcı olacak titiz, erişilebilir, eğlenceli materyaller yayınlamaktadır. Orijinal araştırmalar, incelemeler, uzman analizleri, yetkili görüşleri ve tıbbi eğitim materyalleri ile dünyanın en etkili ve saygın tıbbi dergilerinden biridir.

KAPSAM

- Veri tabanı, sadece BMJ koleksiyonunu değil, sağlık bakım yönetiminden nörolojiye kadar geniş bir yelpazeyi içine alan dergileri de kapsamaktadır ve tam metin erişim vermektedir.
- Occupational Medicine, British Journal of Ophthalmology (BJO), Thorax, Archives of Disease in Childhood, Gut, gibi önemli dergilerin bulunduğu 30 adet dergiye erişim sağlar.

İÇERİK

BMJ Journals Koleksiyonu'nda Neler Var?

- Özel konulu, halk sađlığı ve kanıta dayalı tıp alanında uzman otorite dergiler,
- Tam metin erişim,
- Annals of the Rheumatic Diseases, Journal of Clinical Pathology, British Journal of Ophthalmology, Heart ve Gut dergilerinin 1800'lü yıllara varan geriye dönük arşivlerine tam metin erişim,
- Çođu alanda uzman ve etki faktörü en yüksek dergiler,
- Bütün dergilerin kendi web sitelerine erişim ve tam metinlerine HighWire Press üzerinden erişim,
- Uluslararasıdır, editörler ve editör yardımcıları dünyanın bir çok ülkesinden katkı sağlamaktadır. Örneđin, ABD, Avustralya, Kanada, Hong Kong, Avrupa, Güney Dođu Asya, Türkiye...

Heart is an international journal from BMJ and BCS publishing important research and reviews in cardiovascular disease.

Impact Factor: 5.7

CiteScore: 10.4

[All metrics >>](#)

Heart is an international peer reviewed journal that keeps cardiologists up to date with important research advances in cardiovascular disease. New scientific developments are highlighted in editorials and put in context with concise review articles. There is one free Editor's Choice article in each issue, with open access options available to authors for all articles. Education in Heart articles provide a comprehensive, continuously updated, cardiology curriculum.

Heart promotes active interchange among researchers and readers to come together as a community to advance science and improve patient care via regular free audio podcasts, letters to the Editor, and news via X and Facebook.

 Listen to the Heart Podcast, which is published twice a month, and subscribe in all podcast platforms, including Apple Podcasts, Spotify and Amazon Music.

Heart is an official journal of the British Cardiovascular Society.

Editor-in-Chief: Professor Kazem Rahimi, University of Oxford, UK

Original research

Food availability, perceived food environment and social norm perceptions of healthy and vegetarian food consumption at a public music festival in the Netherlands: a cross-sectional study

Correspondence to Tamika M Wopereis; tamika.wopereis@wur.nl

Abstract

Objective To gain insight into the food availability, the perceived food environment, and social norm perceptions in favour of healthy and vegetarian food consumption at a festival.

Design Two cross-sectional substudies were conducted to audit food and beverages at the festival, and to measure visitors' perceptions of the festival food environment (accessibility, affordability, availability, diversity, quality) and their social norms perceptions via a mobile survey.

Setting Public music festival, the Netherlands.

Sample 75 food stands and 153 adult festival visitors.

Results 75 food stands offered 627 food and beverage items, of which 92.4% were not supportive of a healthy diet. Of all food items, 46.6% were vegetarian (including 20% fries). Participants especially perceived the festival food environment as unsupportive of healthy choices. They also had weak descriptive and injunctive social norm perceptions in favour of healthy and vegetarian food consumption. However, they had stronger descriptive ($t(152)=-5.5$; $p<0.001$) and injunctive norm perceptions ($t(152)=-4.5$; $p<0.001$) of vegetarian food consumption (mean descriptive social norm perception=2.42; SD=0.82; mean injunctive social norm perception=3.14; SD=0.78), than healthy food consumption (mean descriptive social norm perception=2.10; SD=0.76; mean injunctive social norm perception=2.93; SD=0.78). Participants had stronger injunctive than descriptive social norm perceptions of healthy ($t(152)=-12.4$; $p<0.001$) and vegetarian ($t(152)=-11.3$; $p<0.001$) food consumption. Participants' perceived food environment and their perception of social norms were positively correlated.

Conclusion The festival's food environment appears unsupportive of healthy and vegetarian food consumption. The limited availability of healthy and vegetarian food coincided with weak social norm perceptions encouraging their consumption, particularly descriptive norms that arise from observing others. The food environment may stand in the way of developing
