Instruction Method (Face-to-face, Distance education etc.)	In person
Weekly Schedule of the Course	Week 1: Differentiation and clinical features of superficial lesions of the oral mucosa Week 2: Differentiation and clinical features of superficial lesions of the oral mucosa Week 3: Intraoral white lesions Week 4: Intraoral white lesions Week 5: Candidiasis Week 6: Intraoral red lesions Week 7: Intraoral red lesions Week 8: Intraoral red lesions Week 9: Vesiculobullous lesion (around the mouth) Week 10: Vesiculobullous lesion (intraoral) Week 11: Aphthous stomatitis Week 12: Behçet's disease Week 13: Lymphoma, Leukaemias, Anaemia Week 14: Osteonecrosis due to drug use Week 15: Bone diseases Week 16: Bone diseases Week 17: Odontogenic and non odontogenic tumours Week 18: Odontogenic and non odontogenic tumours Week 19: Odontogenic and non odontogenic tumours Week 20: Benign tumours of the oral cavity Week 21: Benign tumours of the oral cavity

	Week 22: Odontoma Week 23: Odontoma Week 24: Definition of tumour-like lesions, epithelial lesions 25th week: Pigmented lesions 26th week: Giant cell granuloma, epulis Week 27: Drug-induced gingival growths, gingival fibromatosis Week 28: Haemangioma, lymphangioma								
Teaching Activities <i>(The time spent for the activities listed here will determine the amount of credit required)</i>	Weekly theoretical course hours: 1 week/hour (28 weeks) Weekly practical course hours: Reading activities: Internet search and library work: Designing and implementing materials: Making a report:1 week/hour (1 week) Preparing and making presentations: Midterm and revision for midterm:1 week/hour (2 weeks) Final exam and revision for final exam:1 week/hour (1 week)								
Assessment Criteria		Number(s)	Weight (%)						
	Midterm exam	2	70						
	Assignment								
	Application								
	Project								
	Practice								
	Quiz								
	Final exam	1	30						
Total	3	100							
Workload of the Course	Activity	Number of Weeks	Duration (Weekly Hour)	End of Semester Total Workload					
	Weekly theoretical course hours	28	1	28					
	Weekly practical course hours								
	Reading activities								
	Internet search and library work								
	Designing and implementing materials								
	Making a report	1	1	1					
	Preparing and making presentations								
	Midterm and revision for midterm	2	1	2					
	Final exam and revision for final exam	1	1	1					
	Total workload			32					
	Total workload/ 25			1,28					
Course Credit (ECTS)			1						
Contribution Level between Course Outcomes and Program Outcomes	No	Program Outcomes			1	2	3	4	5
	1	He/She knows the normal structure and functions of the human body and specifically the structures and teeth in the oral region on the basis of cells, tissues, organs and systems, and their interactions with each other.							X
	2	He/She defines the causes and formation mechanisms of oral, dental and maxillofacial diseases, the symptoms, structure and function disorders and how they affect the organism.							X
	3	He/She knows, comprehends, associates and evaluates the symptoms and signs, diseases and conditions and professional practices at the level determined in the national core							X

	education programme of dentistry and Gazi University Faculty of Dentistry Extended Education Programme.						
4	He/She knows how to access the best current scientific evidence, evaluate its reliability and validity in line with personal learning needs.						X
5	He/She knows the legislation on professional legal responsibilities, deontology and ethical principles.						X
