Gazi University Quality Policy

Our university adopts the following as its quality policy in line with its mission, vision and core values:

- ✓ To operate sustainable quality management processes in all its units with an effective leadership approach and team spirit in achieving its goals in the fields of education and training, research and development, internationalization, entrepreneurship, development of institutional capacity and contribution to society,
- ✓ To monitor and continuously improve all the processes in line with our university's strategic goals and objectives, national and international compliance obligations, and the requirements of the age,
- ✓ To produce graduates with high levels of competence and who are preferred in their fields,
- ✓ To keep stakeholders' participation and satisfaction in quality processes at a high level,
- ✓ To contribute to the R&D and innovation ecosystem with high-added-value projects by regional, national, and international development goals by constantly improving research capacity and competencies in accordance with the mission of the research university.
