

Gazi University Priority Research Areas

- 1) Smart and Innovative Materials (including bio and nanomaterials)
- 2) Energy and Power Conversion
- 3) Solar Energy and Energy Storage (including Battery Technologies)
- 4) Biotechnological Drug Technologies
- 5) The Human Brain and Neuroscience
- 6) Data Science and Cloud Computing
- 7) Cyber Security
- 8) Artificial Intelligence and Machine Learning (Robotics and Mechatronic System Technologies)
- 9) Optics, Electro-optics and Photonics
- 10) Distance Education Applications (Assessment and Evaluation and Techniques)
- 11) Engine Technologies, Electric and Hybrid Electric Vehicle Technologies
- 12) Molecular Pharmacology and Drug Research
- 13) Molecular Oncology and Cancer Research
- 14) Additive Manufacturing and Powder Metallurgy
- 15) Catalysis
- 16) Software Technologies (including Digital Content and Applications in Education)
- 17) Computational Science
- 18) Special Education
- 19) Preschool Education
- 20) City and Regional Planning
- 21) Bioenergy
- 22) Quantum Technologies
- 23) Energy Efficiency
- 24) Food Biotechnology
