

Gazi University Internationalization Policy

Gazi University, as a research university that aims for internationalization and internalizes it at the level of education, research, social contribution, and students, adopts the following as its internalization policy:

- ✓ To increase the number of programs that provide education in foreign languages and have international recognition,
- ✓ To increase the number of international students, diversifying the countries students come from,
- ✓ To increase the mobility of students, academic and administrative staff to study abroad, receive internships and training,
- ✓ To increase partnerships, collaborations, research, scientific, cultural, and social activities with foreign universities,
- ✓ To encourage activities that increase the international recognition of the outputs of research projects such as publications/licenses/patents.
