

GAZI UNIVERSITY FACULTY OF MEDICINE

IIIrd YEAR 2026-2027

PUBLIC HEALTH/ SYSTEMIC INFECTION AGENTS AND MECHANISMS COURSE COMMITTEE

September 7 -October 8, 2026

Examination: October 9, 2026; 9.30 am

Courses	Theoretical	Laboratory	Practice	Courses
PUBLIC HEALTH	31			31
MEDICAL MICROBIOLOGY	33	5x8		43
IMMUNOLOGY	10			10
MEDICAL PHARMACOLOGY	13			13
MEDICAL PATHOLOGY	3			3
NUCLEAR MEDICINE	1			1
MEDICAL ETHICS AND DEONTOLOGY	10			10
MEDICAL EDUCATION AND INFORMATICS	4			4
TOTAL	102	40		114
CLINICAL SKILLS EDUCATION (CSE)			1X4	1
EVIDENCE BASED MEDICINE			1X2	2
ELECTIVE COURSE	3X2			6
MEDICAL ENGLISH	3X2			6
PROBLEM BASED LEARNING	3x2			6
ACADEMIC YEAR INFORMATION	1			1
TOPLAM	19		6	22
FREE RUN-TIME	59			

Total: 24 workday

Medical English (face-to-face): Starting from September 21, 2026. It is every Wednesday between 1.30 pm and 3.20 pm.

Elective Course: Starting from September 28, 2026. It is every Wednesday between 3.30 pm and 5.20 pm.

Free run time definition: Individual studying courses intended for learning objectives (clinical skills education, problem-based learning, etc.) in accordance with the present committee.

Dean	Prof.Dr. Alper CEYLAN
Vice Dean	Doç. Dr. Nazmi Mutlu KARAKAŞ
Vice Dean	Doç. Dr. Asiye UĞRAŞ DİKMEN
Head Coordinator	Prof.Dr. Çiğdem ÖZER
Assistant Head Coordinator	Prof.Dr. Akif Muhtar ÖZTÜRK
Assistant Head Coordinator (Eng)	Prof.Dr. M.Ali ERGÜN
IIIrd year Coordinator	Doç. Dr. Esra ERKOÇ ATAÖĞLU
Assistant IIIrd year Coordinator	Doç. Dr. Onur ERTUNÇ
Assistant IIIrd year Coordinator	Doç. Dr. Kamil İNCİ
Assistant IIIrd year Coordinator	Dr. Öğr. Üyesi Elif Ayça ŞAHİN
Assistant IIIrd year Coordinator	Dr. Öğr. Üyesi Özden SEÇKİN
Assistant IIIrd year Coordinator	Öğr. Gör. Dr. Muhammed Cihan GÜVEL
Clinical Skills Education (CSE) Coordinator	Prof.Dr.Nurten İNAN
Communication Skills Education Coordinator	Prof.Dr. Nesrin DEMIRSOY
Problem Based Learning (PBL) Coordinator	Prof.Dr.Deniz KARÇALTINCABA
Evidence Based Medicine (EBM) Coordinator	Prof.Dr. Mehmet Ali ERGÜN
Elective Course Coordinator	Doç. Dr. Ergin DİLEKÖZ
Medical English	Öğretim Görevlisi Elif KONAK BABAL

COURSE COMMITTEE AIM AND LEARNING OBJECTIVES

Aim:

By the conclusion of the 25-day "Public Health/Systemic Infection Factors and Mechanisms Course Board," third-year students will have acquired both knowledge and a positive attitude towards the development of a

comprehensive understanding of public health, as well as the creation and critical evaluation of evidence-based information. This program aims to facilitate a deep understanding and assessment of various domains, including risk factors, preventive measures, and early diagnosis, in alignment with this overarching comprehension. Additionally, students will explore the structures underlying infectious disease causation, disease mechanisms, diagnostic techniques, clinical and microbiological strategies for addressing hospital-acquired infections, and the evaluation of microbial factors within systemic contexts.

Learning Objectives:

Knowledge:

1. To be able to explain the importance of primary healthcare institutions and understand their place in healthcare services.
2. To be able to list the services provided at the Community Health Center and explain the management functions.
3. To be able to elucidate the historical context of healthcare policies in Turkey.
4. To Understand the roles and functions of central and regional healthcare organizations.
5. To define healthcare financing sources and expound upon the dimensions of healthcare expenditures.
6. To be capable of listing epidemiological criteria, interpreting them through evaluation, and defining the fundamental strategies of epidemiology.
7. To list the fundamental characteristics of descriptive studies, explain the criteria for causality, compare analytical research based on their features, provide examples, describe the fundamental characteristics and criteria of intervention studies with examples, and elucidate the fundamental characteristics and criteria of methodological studies through examples.
8. To explain the concept of healthcare improvement and provide examples of methods that can be used in healthcare improvement.
9. To define the concept of infectious diseases, classify infectious diseases based on routes of transmission, and explain preventive methods according to the routes of transmission.
10. To state the vaccines, doses, and administration schedules included in the childhood, maternal, and adult immunization calendars in Turkey.
11. To define the cold chain and list its components.
12. To define basic concepts in the epidemiology of infectious diseases and explain the principles of infectious disease surveillance.
13. To be able to categorize notifiable infectious diseases.
14. To list the steps for investigating outbreaks, explain the principles of outbreak investigation, and elucidate outbreak control measures.
15. To explain the Vaccine Adverse Event Reporting System.
16. To define the state of Occupational Health and Safety in Turkey and globally.
17. To comprehend the epidemiological criteria for Occupational Health.
18. To define the concept of Occupational Hygiene and understand workplace environmental factors and measurement methods.
19. To define the concept of Occupational Disease and identify the risk factors associated with it.
20. To define the concept of Occupational Accidents and identify the risk factors associated with them.

21. To define the concept of Emergency Situations and identify the causal factors; understand the components of healthcare during emergencies.
22. To understand the components of Community Mental Health and recognize the risk factors.
23. To comprehend the concept of Addiction and recognize the risk factors.
24. To explain the concept of Environmental Exposure, define environmental diseases, list types of environmental exposure, and enumerate environmental factors (air pollution, water pollution, waste, etc.) that can impact health.
25. To list chronic diseases and explain preventive measures.
26. To mention the concept of Early Diagnosis and list early diagnosis methods for chronic diseases.
27. To be able to discuss the relationship between nutrition and health and provide examples of what should be done for proper and regular nutrition.
28. To be able to tell the concept of School and Adolescent Health
29. To explain a well-child examination from a child health perspective and list the steps involved.
30. To mention the concept of Reproductive He
31. To state the concept of Demographics.
32. To list the health issues brought about by an aging population.
33. To list the types of accidents and state accident prevention methods.
34. To explain the concept of the health preservation and improvement.
35. To classify the fundamental characteristics of infectious diseases.
36. To explain the pathology of infectious diseases.
37. To interpret the mechanisms through which bacteria, viruses, and parasites cause diseases.
38. To identify sites suitable for specimen collection for diagnostic purposes in infectious diseases.
39. To list microorganisms that act as infectious agents according to systems.
40. To classify diseases caused by infectious agents and explain their mechanisms.
41. To evaluate the importance of infectious diseases in public health.
42. To assess the significance and societal dimension of infectious agents

Skills:

43. To be able to collect samples from patients, perform examinations, and apply culturing and staining techniques, interpreting the results.
44. To be able to list and apply diagnostic methods used for laboratory diagnosis of infectious diseases.
45. To be proficient in clinical sample collection and culturing techniques.
46. To be able to conduct antibiotic susceptibility tests and interpret the results.

Attitudes:

47. To understand the significance of infectious diseases, contribute to protecting the community from diseases caused by microorganisms, and collaborate with relevant organizations. Should develop a preventive medicine perspective regarding public health.
